Full Stack Developer — Frontend Engineer — UI Systems Designer
Kolkata, West Bengal, India ◇ +91 81672 76728 ◇ Open to Internships

OBJECTIVE

Passionate B.Tech Computer Science student with strong skills in MERN Stack development, frontend engineering, backend APIs, and database management. Experienced in building full-stack web applications including billing systems, task management platforms, meal tracking systems, and real-time communication applications. Interested in software development, AI-integrated applications, and scalable web technologies.

EDUCATION

B.Tech in Computer Science Engineering, Adamas University 2023 - 2027
SGPA: 7.374

Gobindapur High School (H.S.)
Higher Secondary (WBCHSE) — 82.5 2023
Secondary School (WBBSE) — 96.6 2021

SKILLS

Frontend	HTML, CSS, React, Next.js, TypeScript, JavaScript, Tailwind CSS, Accessibility
Backend	Node.js, Express.js, REST APIs, Authentication
Programming	Java, JavaScript, C, Python
UI/UX	Design Systems, Motion Design, Micro-interactions, Component Architecture
Tools	Git, GitHub, VS Code, Vercel, Netlify, Figma, Postman, OpenRouter / AI APIs
Database	MongoDB, MySQL

PROJECTS

MealHub – Smart Meal Tracking System [Live Demo](#)—[GitHub](#)
Tech Stack: MERN Stack

- Built a meal tracking platform with monthly analytics and reports for shared living.
- Implemented meal management and expense tracking features.
- Added responsive dashboard UI and data visualization components.
- Integrated backend APIs for storing and managing meal data.
- Designed responsive dashboard UI optimized for desktop and mobile devices.

FitTrack – Fitness Tracking Application [Live Demo](#)—[GitHub](#)
Tech Stack: React.js, Node.js, MongoDB

- Developed a fitness tracking application for monitoring workouts and goals.
- Implemented user authentication and progress tracking.
- Designed responsive UI with modern dashboard components.

Collaborative Task Management - [GitHub](#)
Tech Stack: MERN Stack

- Developed a collaborative task management system supporting real-time task updates and protected authentication.
- Added task creation, updates, tracking, and status management.
- Implemented authentication and protected routes.

- Designed responsive and user-friendly frontend.

MedBill – Medicine Billing Inventory Management

[Live Demo](#)—[GitHub](#)

Tech Stack: HTML, CSS, JavaScript

- Developed a medicine billing and inventory management system for medical store.
- Implemented medicine stock management and billing generation.
- Added search functionality and dynamic inventory updates.
- Deployed the project successfully on Vercel.

Talent-IQ: Video Calling Interview Platform

(Ongoing)

Tech Stack: React.js, Node.js, Socket.io, WebRTC

- Developing a scalable real-time interview platform supporting video communication and live meeting rooms.
- Implementing authentication and meeting room functionality.
- Using Socket.io and WebRTC for live communication features.
- Designing responsive modern interview interface.

ACHIEVEMENTS

- Built and deployed multiple full-stack web applications using MERN Stack.
- Actively learning advanced backend development and AI-integrated applications.
- Participated in academic and self-driven software development projects.
- Participated in Smart India Hackathon and Generative AI Hackathon.

LANGUAGE

- English.
- Hindi.
- Bengali.
